DEPARTMENT OF LABOUR.

Simla, the 29th *June* 1940.

No. TR. 8.—The question of securing and maintaining an adequate supply of skilled personnel for ordnance factories in India as well as for firms engaged in the production of munitions and other supplies essential for the prosecution of war has been engaging the attention of the Government of India. The demand for skilled workmen for ordnance and other factories is growing and in view of the necessity for increased production of war materials in India this demand is likely to grow still more. Government are taking certain measures to meet in this regard the immediate needs of munitions and other factories engaged in essential war work but they feel that they must also take prompt action to adapt the present system of technical education in the country so as to ensure an increased supply of trained men of the required skill. The Government of India have accordingly decided to set up a Committee with the following terms of reference :—

(1) To examine the training at present imparted in the technical institutions in India and to report—

(a) in what respects this training is defective for the needs of war time industry; and for what reasons;

(b) how the training can be brought up to such a standard as will fit the students for employment as skilled artisans as quickly as possible; and

(2) to consider and report—

(a) what institutions could most usefully be assisted and whether particular institutions should be asked to train for particular industries;

(b) what form the assistance should take, e.g., financial or advisory or both; and

(c) what requirements if any should be fulfilled as a condition for the grant of such assistance.

The object of the inquiry is not to review technical education generally but to ascertain to what extent technical institutions can be used or adapted for training skilled men for industrial purposes.

The Committee will consist of the following members :—

1 The Educational Commissioner with the Government of India (CHAIRMAN).
2 The Director of Civil Aviation in India.
3 A representative of the Master-General of Ordnance
4 A representative of the Railway Board.
5 A representative of the Air Officer Commanding-in-Chief.
6 A representative of the Adjutant-General.

The Under Secretary to the Government of India, Department of Labour, will act as Secretary to the Committee.

No 539

The following resolution of the Government of India is republished.—

DEPARTMENT OF COMMERCE.

Simla, the 10th June 1940.

No. 26-T.—The Government of India have already announced that they are prepared to consider the question of assuring specified industries, the starting of which is considered essential under conditions created by the war, of such measure of protection against unfair competition from outside India after the war as may be necessary to enable them to continue their existence. A request for such an assurance has been received from a firm anxious to reopen a factory for the manufacture of steel pipes and tubes up to a nominal bore of 4 inches. In view of the fact that such pipes and tubes are largely used in connection with water-supplies, the maintenance of which is of great importance to Government departments, including the Defence Department, the Government of India have decided to give the desired assurance to all who wish to undertake their manufacture. It is understood that the pipes and tubes in question are likely to be made from imported steel in present conditions and the assurance given will hold good even though imported steel may continue to be used for the purpose until such time as supplies of indigenous steel become available.
